

Welcome to ARAMARK Education K-12 Helping Students Flourish

Dear Parents,

I would like to share exciting news about recent changes in your high school student's dining program. ARAMARK Education is proud to partner with Proviso Township High School District #209 in Building the Future. As their partner, we are providing a place where your student can come as they are and let them know that in this environment, all we ask is that U.B.U. Here they'll find their favorite foods & variety as they refuel both physically and emotionally to meet the challenges of the day.

u.b.u. Lounge Concept: The u.b.u. concept is all about sophistication and trying new flavor combinations. Specialized marketing and menu themes target the more developed tastes and preferences of high school students. Students can express themselves and find time to just hang out with friends while eating healthy and flavorful foods that meet their individual personalities. The u.b.u. concept is all about being relevant, available, tasty and a great deal for your teenager.

Menus: We offer a great value for both breakfast and lunch with numerous choices including healthy grab & go and made-to order specialties. Students will enjoy new menu items featuring creative twists on all of their favorites while keeping healthier initiatives in mind. Our school lunches are designed to give your student the food choices they want, yet still meet or exceed the USDA dietary guidelines to help nourish healthy bodies and minds. Nutritious choices give our students the advantage of better performance, test scores, attitudes, social skills and better attention spans.

Ala Carte Items: A variety of ala carte items are available for students to purchase. These items meet all nutritional regulations and are approved through our featured Snack Factor program.

Communication: The u.b.u. concept is supported by many tools to optimize communication. We utilize websites, PA announcements, posters and student newspaper ads to « spread the message ».

I personally invite you to visit the UBU Lounge to see first hand the exciting changes that have been implemented for your students. If you should have any questions or need additional information, please contact the food service office at 708-202-3044.

Thank you,

Robert Carter
Food Service Director with ARAMARK Education K-12
