Why Community Service?

The number of high school students involved in community service programs has risen from 81,000 in 1984 to nearly 3 million in 1997 (National Service Clearinghouse).

Community service programs are being implemented to help counteract the sense of isolation that many experts attribute to the growing amount of violence in the schools.

Most schools with community service learning cited strengthening relationships among students, the school, and the community as key reasons for practicing community service.

Community service has long been viewed as a possible means of improving education. John Dewey, an advocate of service learning, believed that students would learn more effectively and become better citizens if they engaged in service to the community.

Dear Parent (s)/Guardian (s),

As you know, for years we have had community service or service(s) as a graduation requirement.

Community Service is defined as volunteer service beyond the confines of the traditional classroom that fosters civic responsibility for the benefit of the community. This service is non-paid, non-graded and non-punitive. Through this service, students will develop skills, career awareness, and self-esteem. The intent of the requirement is to encourage students to be active and engaged members of their communities and to address important community issues. Service can unite neighbors, mobilize volunteers and encourage a lifelong ethic of public participation and is best performed in conjunction with a reputable public service organization.

To this end, the guidelines for what qualifies as community service for the district graduation requirement have become more explicit. They are as follows:

- _ No pay may be received for service;
- _ No family members may be the recipients or supervisors of service;
- _ No credit will be given for extracurricular (co-curricular) activities or for student aide activities;
- _ No service may be performed during a student's school hours;
- _ No credit may be given for grading papers;
- _ No credit for service will be recorded without a parent or guardian's signature, both for permission and of approval;
- _ No credit for service will be recorded without the Activities Coordinator's signature of approval;
- _ It is highly recommended that service be in conjunction with a reputable public service organization.
- _ No credit will be given for work with a profit-making organization.

Contacts for community service activities are located in the Activities Coordinator's Office.

Students will be required to complete a minimum of thirty-six hours of community service per year before graduation. Counselors and the school's activities coordinator will discuss the guidelines, student responsibilities and verify completion of the community service requirement.

Parents are required to sign their students' community service forms before the activity is completed as parent permission to complete the activity.

Please contact the Counseling Office at _____ if you have questions or concerns.

Sincerely,
