ASSIGNMENT CATEGORIES

RE-DO / RE-TAKE INTERVENTION

This intervention provides the opportunity for students to demonstrate acquisition and mastery of key skills through reengagement of students with critical assignments/ assessments. Student may request no more than three re-do / re-take opportunities per semester of assessments/ assignments determined by the teacher to be key indicators of student learning. Additional opportunities may be allowed at the teacher's discretion.

To be eligible, students must have five or fewer unverified absences per quarter in the class and complete a contract. Quarter and final exams are not eligible for retakes. Students may be required to engage in specific preparation activities prior to the re-do / re-take attempt. The teacher will indicate on the contract the maximum score the student may receive. The contract will also specify the date by which the re-do / re-take must be completed.

NO OPT-OUT INTERVENTION

A student who is in danger of failing primarily due to non-completed or poorly completed assignments may be identified by the teacher for No Opt-Out Intervention. Students will be required to complete the missing assignments to the satisfaction of the teacher to be removed from No Opt-Out Interventions.

While under No Opt-Out Intervention, students will be directed during their lunch period to a specific location in the building to work on the assignment. Students will be given the opportunity to eat lunch, and will then report to the assigned location. The teacher will provide the student with a No Opt-Out Assignment Form. The form will identify the missing assignment, tell the student where to report during their lunch period, and indicate the date by which the assignment must be completed. Once the student completes the assignment, they will no longer be required to attend No Opt-Out during lunch.

If the student does not complete the assignment by the date indicated on the form, a meeting will be scheduled with the student, parents and counselor.
